CONCEPT

WARTEG

EVERY

Fascinated with the window cover of traditional Warteg (warung tegal) facade. The wooden planks row with number is a true meaning of rationalism and form follows function in our **EVERY**day life.

# PLANK CHAIR

The known wooden window architecture has evolved from its original plank-covered façade into a frame of glass and aluminium. Reincarnating these original planks, Plank Chair takes us back to humble beginnings in wood whilst providing an innovative crevice down its spine to let air circulate through the chair and free up the common heat that sweats your back.
